**TIPS FOR COOKING:**

“Two basic rules are:
cook it slowly  (low temperature)
cook it with moisture.
Tender cuts of meat are usually best when cooked by a dry heat method such as roasting, broiling or frying. Less tender cuts are tenderized by cooking with moist heat such as braising and stewing. Tender cuts of goat meat are the legs, ribs, portions of the shoulder cut, the loin roast and the breast. Less tender cuts of meat are stew meat, riblets and shanks. Cooking any meat at low temperatures results in a more tender and flavorful product with more juice. Recipes for cooking goat meat are varied. Goat meat does have it’s own distinct flavor and aroma. If prepared with patience and adequate moisture, you and your family will enjoy a fine feast.”
