

Cows Eat Corn

Brought to you by

Photography by Geoffrey McLean

McLean Research Associates

This is corn.

It is cow corn.

Cows eat the corn.

**This is a stalk of corn.
It has leaves.**

The corn stalk is tall.
It has a tassel on top.

Cow corn has one ear of corn.

Husks are on the ear of corn.

Kernels are on the cob.

The cows eat the stalk,
the leaves, the tassel,
the husks, the kernels,
the cob.

The cows eat it all.
